

Searching for and saving images

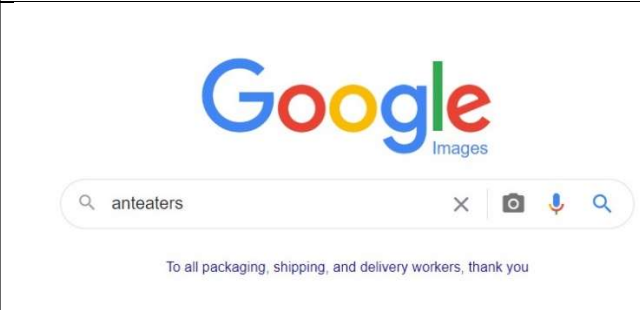

Step 1: Go to images.google.com

- In a web browser, click in the address bar at the top and type in images.google.com
- Press the “Enter” key.

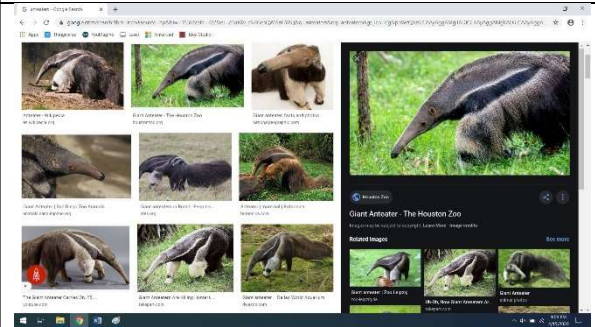

Step 2: Type in a search term

- In the Google Images search bar, type in the word or phrase you wish to search for.
- Press the “Enter” key.

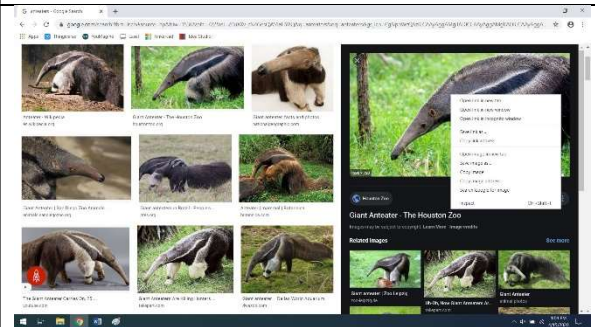

Step 3: Click on the desired image

- Find an image you like and click on it. This will cause it to open a larger version of the image on the right side of the screen.

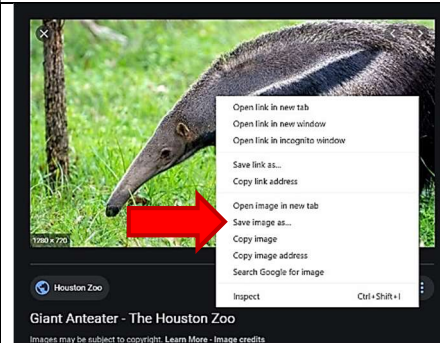

Step 4: Right-click on the larger version of the image

- With your mouse over the picture on the right side of the screen, click the right mouse button. This will cause an options menu to appear.

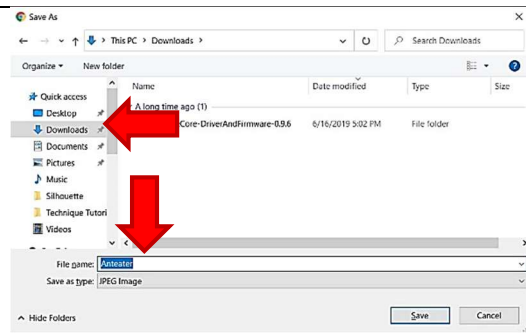

Step 5: Select “Save image as”

- From the menu, click on “Save image as.” This will cause a dialog box to open.

Step 6: Choose a file name and location

- On the left-hand side of the dialog box, select a location to save the file. Generally, either “Desktop” or “Downloads” are good options.
- Give the file a name by typing in the “File Name” field.

Step 7: Click “Save”

- At the bottom of the dialog box, click on the “Save” button. The picture is now saved in the location you selected with the name you assigned.
